

BEVNET bevManager PLATFORM

Overview:

US Beverage Net Platforms uses advanced technologies based on .NET Framework, which is currently the most preferred technology for data analysis and management. In order to utilize the full functionality of these technologies, this website is optimized for the following

- a. Internet Explorer 7.0+
- b. Mozilla Firefox 3.0+

Internet Explorer:

- a. Tools -> Internet Options -> Security -> Custom Level -> Scripting -> Enable
- b. Tools -> Internet Options -> Advanced -> Security -> Enable Integrated Windows Authentication
- c. If an anti-virus is installed switch on the phishing protection
Tools -> Internet Options -> Advanced -> Security -> Phishing Filter -> Turn on automatic website checking
- d. Tools -> Privacy -> Settings -> Click on Sites and add the web address of bevManager and click Allow

Firefox:

- a. Tools -> Options -> Content -> Select Enable JavaScript
- b. Tools -> Options -> Content -> Enable JavaScript -> Advanced -> Hide the status bar
- c. Tools -> Options -> Privacy -> Cookies: Select "Accept cookies from sites" and set "Keep until" to "they expire". If this cannot be done select 'Exceptions', type <http://www.bevManager.net> on the address bar and select 'Allow'

The browser has to be restarted after making any of the above changes

Note: If requirements described above have not solved your problem and you are still unable to access the bevManager platform please contact tech@usbeveragenet.com or Customer Service at 1-888-298-3641.
